Banned Content on Hosting Platform

Each account comes with its own CGI-bin. The client is free to use any CGI scripts you wish, however, our upstream provider reserves the right to disable any CGI script that effects normal server operation without prior warning.

Banned Scripts or website types

The following scripts are banned from use on our servers and may not be uploaded or run. Reasons for banning them include adverse effects on server load, invitations to hackers/spammers/criminal activity, etc. Hosting any type of these sites will result in instant account suspension until the content is removed. On the case that the content was uploaded willingly by the client, We or our upstream provider reserves the right to terminate the account. If the content was uploaded by a 3rd party (hackers, abusers which intend to take the client site down), then if recognised we will inform the client about the abusive content. We or our upstream provider also reserves the right to remove such content from user account without prior notification.
